Muhammad Mujahid Muslim

android & ios developer at Rumaysho Academy

West Karawang, West Java, Indonesia

Summary

I am a Frontend & Mobile Developer dedicated to building responsive, efficient, and user-centric web and mobile applications. Experienced in crafting smooth digital experiences using modern frameworks and tools, including React Native, Vue.js, TypeScript, Vite, Expo, and Tailwind CSS.Beyond writing code, I enjoy exploring software architecture, optimizing developer workflows, and diving into hands-on DIY tech projects. Outside of tech, you will often find me playing strategy games, keeping up with the latest industry trends, or simply relaxing at home.Core SkillsFrontend & Mobile: React Native, Vue.js, TypeScript, Expo, Vite, Tailwind CSSTools & Infrastructure: Git, REST APIs, Build Tools, Basic CI/CD PipelinesCore Focus: Performance Optimization, Clean Architecture, UI/UX Implementation

Experience

Rumaysho Academy

android & ios developer

August 2025 - Present (1 year 3 months)

Yogyakarta, Indonesia

End-to-End Mobile App Lifecycle: Designed and engineered cross-platform mobile applications for iOS and Android using React Native & Expo, taking projects from initial concept to deployment.

UI/UX & Prototyping: Translated business requirements into intuitive, responsive UI/UX designs and high-fidelity prototypes using Figma.

Store Deployment & Compliance: Successfully managed release cycles, store listings, and review guidelines for both Google Play Store and Apple App Store.

Cloud & Notifications: Integrated Firebase Cloud Messaging (FCM) for targeted push notifications, real-time data sync, and backend services.

Maintenance & Performance: Monitored app stability, fixed bugs, and rolled out regular updates/patches using EAS (Expo Application Services).
